ABOUT US

Practical technology. Local project support.

KADALI AFRICA VENTURES LIMITED is a Ghana-based business supporting food and agricultural processing projects through equipment sourcing, technical coordination and project development.

From individual machines to complete processing lines, we help businesses define requirements, assess capacity options and coordinate installation, operator training and after-sales support.

OUR SUPPORT

Equipment selection

Machine and capacity options aligned with feedstock, output requirements and available utilities.

Project coordination

Support for layouts, line configuration, procurement and implementation planning.

Installation & training

Technical coordination for commissioning, operating procedures and operator training.

After-sales support

Coordination for maintenance, service enquiries and spare-parts requirements.

Tell us your product, input capacity and desired output.
Our Ghana office will help define the next step.
